Welcome to the World of Fasteners from...

DinStock™

Units C1, C2, D6 & B3
Hortonwood 10
Telford, Shropshire
UK
TF1 7ES

Certificate No. LRQ 4006330

Full in-house testing on all bolting, nuts and washers to meet with all EU/CE requirements for pre-load and non pre-load bolt assemblies. Certified to ISO.9001:2008 with Lloyds Register and in the process of achieving CE Approval.
For over 40 years *DinStock™ has been at the heart of U.K. Manufacturing, offering real solutions to a growing number of sectors and markets, including; Rail, General Construction, Marine, Civil Engineering and the Metalworking Industry.

With specialist manufacturing centres on two sites in Shropshire and the West Midlands in the heart of England, we are ideally located with easy access to motorway arteries, international airports and sea ports enabling quick & efficient distribution by road, sea and air, not only within the U.K., but also throughout Europe and worldwide.

As part of the Jackdaw Group of companies, DinStock™ has the added ability to offer the range of Industrial Tooling; Hand Tools, Power Tools, Cutting Tools, Carbide Tools; PPE products totalling over 60,000 additional lines. As a group, we are leading wholesalers and stockist of top branded industrial power tools. As a group, we are leading wholesalers and stockist of top branded industrial power tools.

Our partnership in Europe with GDPA fasteners of India, means we are able to offer their quality assured Forgings, finished by us in the U.K. Bulk deliveries are catated for direct from India with the ability to offer smaller lots more rapidly within Europe in Days, instead of weeks!

With a vast stock portfolio of standard, non-preferred and blank forgings, there is little we cannot offer on a next day delivery to almost anywhere – worldwide!

With modern warehouse facilities totalling over 20,000sq.ft and equipped with the latest automated systems and computer controlled stocks for over 80,000 product lines, we can usually offer a quotation immediately and advise you of availability, delivery time and costs.

Our well equipped machine centre caters for most types of manufacturing processes including Landis Thread Cutting machines, Fette Rolling, CNC Lathes and Ward Capstans for small precision turning and batch work.

With a vast stock portfolio of standard, non-preferred and blank forgings, there is little we cannot offer on a next day delivery to almost anywhere – worldwide!

Keeping the world from falling apart since 1963…
